THE CLAY CITY TIMES.

To you dear Editor now I send
These simple truthful rhymes,
In which appears that little gem,
The bright Clay City Times.

We hail it in our little town,
And as we read with pride,
We see the printing's neatly done
And plenty of news beside.

And often do we read with joy,
The items from Vaughn's Mill,
Also from Xena and Spout Spring
And read them with a thrill.

We read the locals every one,
And see the neatness there,
And then we gaze upon the ads
So brightly they appear.

And I close my simple rhymes,
To the power of the press,
And wish you in coming years
An abundance of success.

Hazel Green, Ky.

—SAM WILSON.

Last Meeting of the Old Board.

The last meeting of the old city council will be held Friday night. However Mayor Warmouth will hold over two years more, while Councilmen J. H. O'Rear, Logan Stuart, and Thos. Edge, old members, are re-elected, which leaves only Tulbee Mountz, O. C. Flynn and Everett Mosfield as new members of the coming board.

Married in Lee County.

Silas Rogers, of Powell county, and Miss Carrie Childers, daughter of R. A. Childers, were married by Rev. Sherman Robbins at the residence of J. Boyd Curry at Greeley, on the 5th inst.—Beattyville Enterprise.

The contest case of D. R. Daniel against John H. Hardwick in the County Judgeship has been dismissed from Circuit Court.

Why Paper Keeps Coming.

We were asked this week by a delinquent subscriber why we kept on sending the paper after the subscription date expired. Every weekly newspaper in towns of this size are forced to do this. Should we stop subscriptions when the time expires, nine times out of ten the subscriber would give us a "calling down" for insinuating that his credit was not good. Rather than cast a reflection on the honesty of a subscriber to pay a small debt, it is next to a necessity for a home paper to continue sending the paper after the time has expired. It is not necessary for the city dailies or weeklies to follow this rule, as their subscribers live in a distance and are not personal friends as is the case with a majority of our subscribers. Our subscribers should deem it an honor to know that we do not doubt their integrity and continue to send them the paper after the time has expired. Should any desire their paper discontinued, they should notify us and remit to date if they have not already done so.

Moves to Irvine.

N. C. Walters moved last week to Irvine where he becomes foreman of the big lumber mill. We regret to lose Mr. Walters, for truly he is a gentleman and an expert mechanic. We heartily commend him to the good people of Irvine as an ideal citizen and business man.

Henry Waldron one of Clay City's wide-awake merchants, is supplying his customers with beautiful calendars.

Rich Harvests.

In glowing terms Secretary Wilson of the Agricultural Department in his annual report pictures the results of farmers' work for the year ended June 30 last.

"Most prosperous of all years is the place to which 1909 is entitled in agricultural pursuits," is the way the Secretary puts it. The value of farm products was \$8,760,000,000.

Of great popular interests is the unique investigation conducted by the Department, which shows that in fifty cities the total retail cost charged to consumers for beef above the wholesale cost paid by the retailers averaged 38 per cent. The lower the grade of beef the greater was the percentage of gross profit.

In the upward movement of beef prices the farmer, the report says, has not shared equally with the preker, wholesaler and retailer, but as to hogs the case is different, the farmer receiving nearly his fair share of the higher prices of pork in the increased price of his unfed hogs.

Secretary Wilson notes a great forward movement in enforcing the food and drugs act, the willingness of manufacturers to comply with the laws and to co-operate with the Department, making its work largely educational.

An editor works 365 days in a year to get out 52 issues of a paper, that's labor. Once in awhile a subscriber pays a year in advance for his paper, that's capital. And once in awhile some son-o-f-a sea-cook of a dead beat takes the paper for two or three years then skips out without paying for it, that's anarchy, but the person that owes two or three years' subscription and refuses to take it out of the post office, has them all skinned.

Acting upon information given by a man who said that he overheard a conversation in which plans to assassinate John D. Rockefeller were discussed. East Cleveland police guarded Forest Hill, the oil magnate's home, all Tuesday night.

The local option election, contest appealed from the county court to circuit court was dismissed by Judge Benton last week. The case will now be taken to the Court of Appeals.

George W. Lewis, formerly of this county, bought this week a farm of 201 acres four miles from Winchester on the Mt. Sterling pike at a private figure.

Sheiff John M. Kennon had quite a demand for tax receipts the last two days of November, though some went over and will have to pay the penalty.

What Good Roads are Doing.

Mr. Farmer, ask yourself this question: What is your farm worth per acre? And answer it in your own mind. And why is it worth more or less than that of one of your neighbors, whose land and yours is equally productive? Do not the values hinge on the facilities for getting to market with what you have to sell, and to church and school? What is the most potent factor in the difference in the value of lands of equal productiveness? Is it not good roads? Would not the present value of any farm in this county be enhanced if every road in Shelby was first class in every particular? Why did Mr. Bernheim pay \$112 50 per acre for the unimproved land owned by the Colonization Co., and only \$75 per acre for the improved farm adjoining and in rear of it? The latter was just as good land as the former, but the difference was in the fact that the Colonization land fronted on the State pike and there was not a good road to the other. Does not the same conditions apply in every locality?

A reputation for progressiveness counts for much. Much of a business man's success comes to him because he is recognized as a progressive and successful man. The same thing applies to corporations, counties and municipalities. We need more roads, and better roads, but we cannot have them unless we provide more money for the construction and repair of them.—Shelby Record.

The above is sound judgment, is as applicable to every other county in the State as well as Shelby county, Powell not excepted. Then let us begin now to get good roads.

Young Folks Keep in School.

We regret to see a disposition on the part of a few of our young people to quit school. Stay at school another year or two, and don't be ashamed of what ought to be your glory, that you want to learn more. Step from the district school to the high school, from the high school to college, if you can. Get a business education by all means—you will never learn too much. If you desire to become a mechanic instead of an engineer or farmer, an education will not unfit you to become either. It will always be capital bearing a large income of interest.

"When home and lands are gone and spent,
Then learning is most excellent."

Fashion Robs the Farmer.

William Dutcher, President of the Audubon Societies of the United States, states that birds save to the farmer \$200,000,000 a year in the destruction of noxious insects and noxious weeds. The great destroyers of birds are the plume hunters for millinery purposes. Birds destroyed for food are restocked by natural process, but the plume hunters recognize no closed season. Millinery interests in America represent \$38,000,000 worth of work done by birds for the farmers.

It will pay you men and boys to see our line of clothing. We feel sure we can suit you both in style and price. We have them both in novelty and staple colors and styles.

Corn is plentiful on the local market and slow sale at \$3 00 per barrel. Most farmers are holding for the higher prices which are sure to come next summer.

How the Tariff Works.

To the Editor of the Courier-Journal: We recently shipped some beef hides to market. When we got returns, the hide dealer said, on account of the recent tariff hides had declined.

Next day we received from our shoe man notice that on account of the recent tariff shoes had advanced.

The next day a shoe drummer came along. I asked him how is it that the recent tariff has lowered the price of hides and advanced the price of shoes. He says that's a question for the politicians to answer.—Country Merchant.

It is better to be safe than sorry. The savings banks may not pay a very high rate of interest, but they are safe,—and that's more than can be said of most of the numerous "splendid oppor-

tunities" that are advertised in capital letters.

The Boys Most in Trouble.

Young man, let us give you the benefit of our observation. We have noticed that at least nine-tenths of the young men who have been before the courts for misdemeanors are those who take no interest whatever in education seldom read a newspaper and are always ready to make fun of other young men who use correct language and try to be somebody. It comes natural to them to discourage the studious and ambitious young men of their acquaintance. Their minds run toward dirty stories, midnight sprees and bad company. This in a short time means trouble, a sheriff's invitation to attend court, and a fine or term in jail.

Our line of Millinery is strictly up to date and our prices are right. We invite you to call and see it.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. OAKLAND PIANOS

Our aim is the production of a popular, up-to-date, moderate price piano, possessing that quality of tone, worth, value and durability heretofore not found in pianos selling at comparative prices.

The officers of the Oakland Piano Co. are practical piano men whose life-long experience in the building and marketing of pianos is concentrated in the development of those essential quality features that attract the careful buyer.

Our policy is to build one style of case and one grade of piano, thereby increasing our output, reducing the cost of production to the minimum, and permitting us to offer quality and individuality in the "Oakland" piano, impossible to obtain any other way.

Our new factory is the best equipped and most up-to-date plant in the world, having an output of 1,000 pianos annually.

In tone quality in the scale, in the general construction throughout—the finish, style, workmanship—and in durability, we claim the "Oakland" piano has no equal at the price.

If your dealer doesn't handle the "Oakland" piano, write direct to:
